PAARA Policies

Membership in PAARA is \$6.00 per calendar year which includes a subscription to *PAARAgaphs*. Make payment to the Palo Alto Amateur Radio Association, P.O. Box 911, Menlo Park, CA 94026

Club Net on 147.45 MHz Mondays at 8:30 P.M.

Meetings monthly at the Menlo Park Recreation Center at 7:30 P.M., the first Friday of the month.

August

- PAARA meeting Friday August 7th!

From the Editor's Desk:

Thanks for all the fine contributed items this month, both advance-copy and last minute submissions.

Have a good August & See you next month! Don't forget the Flea Market on the 8th! 73's from your Editor.

Speaker of the Month:

ARRL PACIFIC DIVISION DIRECTOR
ROD STAFFORD KB6ZV on the
latest developments in the
League...* Dinner with
speaker at Su Hong Restaurant
on El Camino at 6:15 pm

Coming Attractions:

NW6P Tom McShane on some outstanding
DX achievements & related topics

-
- * More data regarding our August Speaker
(from Andy VE3FZK)

Rod KB6ZV is the highly popular barn-
storming Pacific Division ARRL Director.
The only thing missing in his whistle-
stops is the train. He uses ham radio
instead.

Please provide suggestions for future
speakers to our program chairman (Andy).

President's Corner

As many of you know Field Day was a great success, especially from the enjoyment we all got out of it. We scored almost 4000 points (3A) and could have done better if we had gone after bonus points for Publicity, Message to SCM and the WLAW Field Day Message. Enclosed is a copy of our FD entry and after reviewing it perhaps PAARA members can come up with some ideas on how they can contribute to make next year's effort bigger and better.

We are far short of the volunteers needed to fulfill our commitments for the Aug 8 Foothill Flea Market. We have signed up to be a part of this so let's do it! It obviously benefits both PAARA and the Ham community.

de WA6LNV

Final List of Foothill Museum assignments. Be there 1 to 5 on Sunday. See details in June PAARagraphs.

Some Reflections on Field Day

This year's Field Day was one of the best that I have seen. Although I have not seen as many as some of our members have, I am confident that the members who participated in Field Day enjoyed it. I still have no data on our performance, which, by my best estimation, was relatively good given the fact that PAARA members to the exclusion of "pro" contesters did the greatest amount of operating. The idea that everyone who shows up at Field Day wanting to get on the air will be allowed to is difficult to attain in the real Field Day environment. Nevertheless, a great number of PAARA members (and a few non-members, I believe) were allowed to operate. This certainly did not impair our efforts to keep all stations on the air continuously!

To be more specific, the performance of the novice tent was spectacular given previous novice tent QSO counts. John Gompers and Rob (sorry, forgot the call!) kept 10 meters phone and cw on all other allowable bands active for as long as the band conditions would hold out. Not only did this give PAARA valuable points in the contest, but it also showed a hint of light at the end of the tunnel as far as recruitment of new PAARA members (i.e. novices) is concerned. --de KB6BPM--

PAARA NOVICE CLASS NOTES

(from Craig Smith N6ITW of the PAARA Board):

The Novice candidates from the PAARA Menlo Park novice class and their support members (Elmers) from PAARA are listed below. The novices will be provided the land-line number of their assigned supporting PAARA person. The telephonic support will be a further assist to PAARA novices in any questions which may arise in the course of their ongoing studies. Craig ITW extends his thanks and 73's to all PAARA members who have helped in this activity and requests any inquiries about it be made by phone to him at 415-325-8778.

PAARA FIELD DAY 1967

This field day, the club participated with semi-serious intentions in the 3A class. Calls used were: W6OTX on phone and CW and KA6JLT at the Novice station. There were two phone stations located in the trailer with Gerry-LNV and Ken-BPM as co-captains. The single CW station was located in the usual location right along the water under a shady tree. John-ZL was the CW captain.

We erected the 80 ft. aluminum crank-up tower and mounted the 15m and 20m monobanders for use on phone. At the CW tent, a 50 ft push-up mast supported wire antennas for 80,40,20 and 15. We used a Kenwood TS-930 and TS-430 for the phone stations and a Drake B-line for CW.

All the radios and antennas worked fine. The generator, however, was not totally reliable. It failed once, but thanks to Gerry-LNV and his own generator, we were back on line in no time!

The Novices, I thought, put forth an outstanding effort. The novice people were Rob-JLT and John-TEM. With some guidance from Craig-ITW and others, they were able to utilize the arm of a crane to hang a multiband center fed "fan dipole." Needless to say, the Novices made extensive use of their newly gained 10-meter phone privileges. I would like to note here that the novice station was on the air for the full time and made a significant contribution to the overall score.

The final unduped number of QSOs for each mode were as follows:

PHONE = 1100

CW = 300

NOVICE = 220

At the time of this writing, I did not as yet have available to me a duped final count. Bill-LZI was hard at work on his computer running a sorting program to determine our final score for submission to ARRL.

Finally, I would like to take this opportunity to thank all those who helped to make this field day a safe, successful and most of all fun event. In alphabetical order, they are:
